Overview

This document covers the basic architectural components to connect to IMG's API as well as what is needed before getting started. Once complete, you will be able to access IMG's Quoting and Purchase endpoints. The end points covered in this document are organized around RESTful API's which uses OAuth 2.0 based Centralized Authorization Server. All request and response bodies, including errors, are encoded in JSON and should be made over SSL.

To ensure an optimal testing experience, we provide a Beta API to use before going live with our production API. To play around with a few scenarios, we recommend using a REST client called Postman. We also leverage Swagger UI to make it easier to visualize and interact with our API resources. These will be discussed in more detail below.

Environments

IMG has two different environments that can be used but initial development should start with our Beta (Test) environment before switching to production to ensure requests are working as expected. You will be provided an access token to access both Beta and Production URL's below.

- **Beta URL (For Testing Purposes)**:
  https://beta-services.imglobal.com/API/

- **Production URL**:
  https://services.imglobal.com/API/

Authorization

Authorization Request

All API endpoints require authorization. Once your contract is processed, IMG will need to create your account and provide credentials for API access. **To request these credentials**, please contact IMG at api@imglobal.com.

NOTE: These login credentials are **not the same as your agent portal login credentials** and will only be used to authorize access to our API endpoints along with associating the appropriate product types you are currently licensed to sell.

Company Confidential — Proprietary
This document includes product and company information that is strictly confidential. This document is proprietary to IMG, Inc. and is intended for distribution only within the company and to approved parties.
© Copyright 2019 by International Medical Group, Inc. All rights reserved.

Obtaining an Access Token

Once you are provided with the appropriate credentials, you can then use the authorization server to obtain an OAUTH 2 access token with a post request (see below):

- **Beta Posting URL (For Testing Purposes):**
  https://beta-services.imglobal.com/oAuth/token

  Production Posting URL:
  https://services.imglobal.com/oAuth/token

- **With the posted content as:**
  grant_type=password&username=abc&password=xyz

- **Responses from the call:**
  HTTP status code 200: successful call with the string of token returned.
  HTTP status code 401: access denied

NOTE: This token has an expiration time of 30 minutes.

Calling API with Access Token

After obtaining the access token, you can now make API calls with a Bearer Authorization Header Call with the token value obtained.

Credential/Account Management

Account Creation

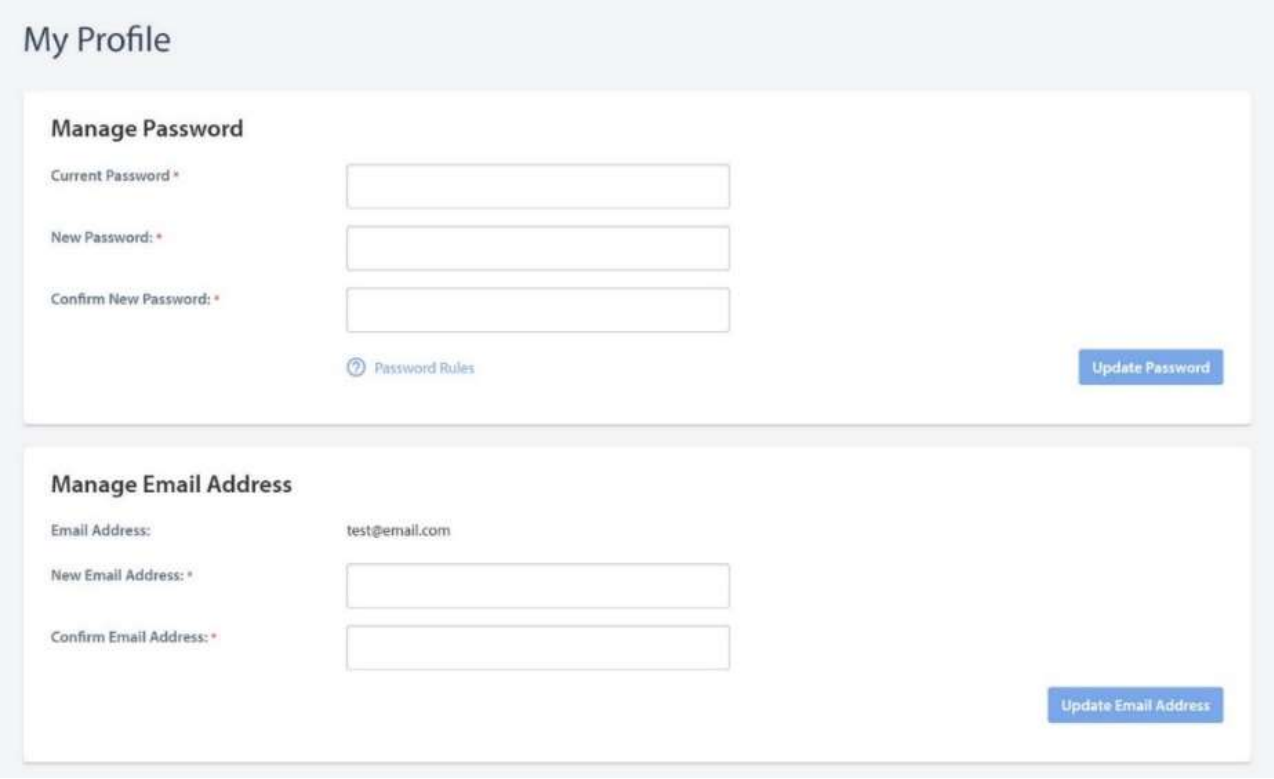
For each agent who needs to access IMG's API, a **MyIMG account** will be created after your authorization request has been completed. This account will only be associated with the certificates and resources relating to the specified agent. So, when you login with this account, only the related information will be returned from any API calls.

Company Confidential — Proprietary
This document includes product and company information that is strictly confidential. This document is proprietary to IMG, Inc. and is intended for distribution only within the company and to approved parties.
© Copyright 2019 by International Medical Group, Inc. All rights reserved.

NOTE: This account only grants API access and **will not be the same as your agent portal login credentials**. Sometimes an agent may have a group administration account to login to MyIMG. This account can login into MyIMG but doesn't have the same access as the regular group admin account. This will provide better account management policies for you.

Account Self-Management

Once IMG has provided your credentials, you can login to MyIMG to manage your password and emails for this API account. After login, click Manage Account > My Profile to get to the profile page as follows:

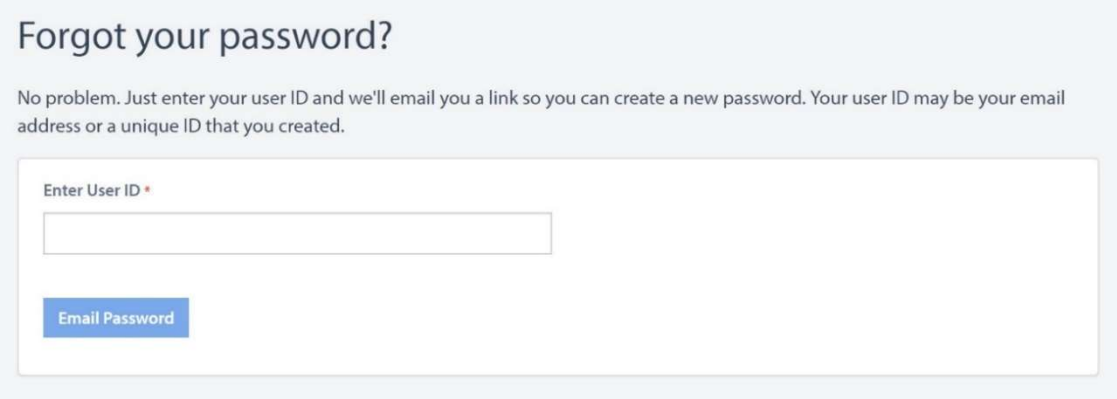


Company Confidential — Proprietary
This document includes product and company information that is strictly confidential. This document is proprietary to IMG, Inc. and is intended for distribution only within the company and to approved parties.
© Copyright 2019 by International Medical Group, Inc. All rights reserved.

Reset / Forgot Password

If you happen to forget or want to reset your password, you can do so using the URL below. Enter your MyIMG username and a temporary password will be sent to your email.

https://www.imglobal.com/member/forget-password



NOTE: IMG's beta testing environment is refreshed every Sunday morning with the production back up as of 12:00am. This means as of the end of the day Saturday. This refresh also affects the password used to gain tokens and authentication. If you have reset your production password, it will not take effect in the beta environment until the following refresh. Please be mindful of this whenever you have performed a password change within MyIMG.

Product Listing

Below is a list of all available products that can be accessed through the API. Please note that while the list below displays all available products through IMG's API, your authorization will only associate the appropriate product types you are currently licensed to sell.

Product Name	Product Code	States	References
iTravelInsured Lite	109	All states except FL, KS, MO, WA, VA	Brochure | Policy Wordings

Company Confidential — Proprietary
This document includes product and company information that is strictly confidential. This document is proprietary to IMG, Inc. and is intended for distribution only within the company and to approved parties.
© Copyright 2019 by International Medical Group, Inc. All rights reserved.

iTravelInsured SE	110	All States except FL, KS, MO, WA, VA	Brochure | Policy Wordings
iTravelInsured SE (Set Plan States)	101	Set Plan States FL, KS, MO, WA, VA	Brochure | Policy Wordings
iTravelInsured LX	112	All States except FL, KS, MO, WA, NY, VA	Brochure | Policy Wordings
iTravelInsured LX (Set Plan States)	103	Set Plan States FL, KS, MO, WA, VA	Brochure | Policy Wordings
iTravelInsured GT (groups of 10 or more travelers)	104	All States except FL, KS, MO, WA, VA	Brochure

Quote API

The Quote API may be utilized to retrieve the total cost of a policy, including its included optional coverages and miscellaneous fees, prior to submitting a request for purchase under the Purchase API. The Quote API is essentially a skimmed down version of the Purchase API that excludes most demographic and all payment information.

The data objects and data elements that are present in the Quote API are included in the same structure and same names as in the Purchase API.

Quote Swagger UI

You may refer to our swagger documentation for models and structure of the request and response of the Quote API at the following link:

https://services.imglobal.com/API/swagger/ui/index#!/Quotes/Quotes_GetTripQuote

Data Object: QuoteQuery (Root Level)

This is the root-level data object that lays the foundation for the API Request.

Company Confidential — Proprietary
This document includes product and company information that is strictly confidential. This document is proprietary to IMG, Inc. and is intended for distribution only within the company and to approved parties.

		This option is not available in FL, KS, MO, WA, VA, TX.	
primaryMailingInfo	Include PrimaryMailingDto data object	See Data Object: PrimaryMailingDto	**Yes**
families (Array)	Include FamilyDto data object	See Data Object: FamilyDto	**Yes**

API Errors

Data Element	Condition	Response Message
producerNumber	Empty or Null	Producer Number is required.
producerNumber	Invalid Producer Number	Producer [value provided] is not found.
productCode	Empty or Null	Product Code is required.
productCode	Invalid Product Code	Product Code is invalid.
startDate	Empty or Null	Start Date is required.
startDate	Value entered <= current date	Start Date cannot be the current date or in the past.
endDate	Empty or Null	End Date is required.
endDate	Value entered >= provided startDate	Departure Date must be after the current date and not later than Return Date.
primaryMailingInfo	Empty or Null	Primary Mailing Information is required.
families	FamilyDto not included	'Families' must not be empty. *[Note: Family can be comprised of one Traveler.]*

Company Confidential — Proprietary

Broken Business Rules

Data Element	Condition	Response Message: [("ruleGroupId"."id") Name]
N/A	N/A	N/A

Data Object: PrimaryMailingDto

This gathers general information regarding the basic coverage details and handling of the certificate. This object is held by the QuoteQuery object's **primaryMailingInfo** data element.

Data Elements

Data Element (data type)	Allowed Values	Rules	Required
state (string)	2-character code; See Appendix	This is required when **country** = "USA"	**Yes**
country (string)	3-character country code; See Appendix	Must be "USA" unless authorized to issue to non-U.S. residents. *See **state** section above*.	**Yes**

API Errors

Data Element	Condition	Response Message
state	Empty or Null	State is required for iTI product.
country	Empty or Null	Country is required.

Broken Business Rules

Data Element	Condition	Response Message: [("ruleGroupId"."id") Name]
state	State provided is excluded from product type provided.	The given Policy Type cannot be purchased in the given State at this time.

Company Confidential — Proprietary
This document includes product and company information that is strictly confidential. This document is proprietary to IMG, Inc. and is intended for distribution only within the company and to approved parties.

Data Object: FamilyDto

This gathers general information regarding the travel details. This object is held by the QuoteQuery object's **families** data element.

Data Elements

Data Element	Allowed Values / Format	Rules	Required
travelers (array[InsuredDto])	TravelerDto required	See Data Object: TravelerDto	Yes

API Errors

Data Element	Condition	Response Message
travelers	Empty or Null	Must have at least one Traveler.
travelers	Missing	Travelers' must not be empty.

Broken Business Rules

Data Element	Condition	Response Message: [("ruleGroupId"."id") Name]
N/A	N/A	N/A

Data Object: TravelerDto

This gathers general information regarding the travel details. This object is held by the QuoteQuery object's **travelInfo** data element.

Data Elements

Data Element	Allowed Values / Format	Rules	Required
dateOfBirth (Array[string])	Valid date format		Yes

Company Confidential — Proprietary
This document includes product and company information that is strictly confidential. This document is proprietary to IMG, Inc. and is intended for distribution only within the company and to approved parties.

tripCost (number)			**Yes**

API Errors

Data Element	Condition	Response Message
dateOfBirth	Empty or NULL	Date of Birth is required
tripCost	Empty or NULL	Trip Cost is required

Broken Business Rules

Data Element	Condition	Response Message: [("ruleGroupId"."id") Name]
N/A	N/A	N/A

Purchase API

The Purchase API is the request you submit once you have compiled all required and optional information, including demographic and payment information. The following pages detail the complex rules and validations that our system performs to help you gather the appropriate information for the specific product you are selling.

Purchase Swagger UI

You may refer to our swagger documentation for models and structure of the request and response of the Purchase API at the following link:

https://services.imglobal.com/API/swagger/ui/index#!/Purchases/Purchases_GetPurchase

Test Online Payment Methods

The following test accounts may be used when submitting test requests through the beta environment:

Credit Card Payment Types

The following credit cards can be used when submitting test requests through the beta environment (only).

Credit Card Type	Card Number	Number of Characters	
		Credit Card	Security Code
MasterCard	5454 5454 5454 5454	16	3
MasterCard	5555 5555 5555 4444	16	3
Visa	4012 8888 8888 1881	16	3
Visa	4636 6800 8679 9379	16	3
American Express	3782 8224 6310 005	15	4
American Express	3714 4963 5398 431	15	4
Amex Corporate	3787 3449 3671 000	15	4
Discover	6011 0009 9013 9424	16	3
JCB	3566 0035 6600 3566	16	3

eCheck Payment Type

The following eCheck payment type can be used when submitting test requests through the beta environment (only).

Routing Number	Account Number
